Master Program in European and International Business Law (LL.M.)

The course concept links theory to real world business. The high level curriculum offers solid grounding in the institutional fundamentals of the European economic integration and an introduction to international business law. The foundation classes are followed by core courses which provide comprehensive overview on contract law, international arbitration, competition law and intellectual property law. Specialized courses in the 2nd semester allows student to immerse in areas such as consumer protection, social policy, e-commerce, international carriage of goods, securities, business related crimes or M&A regulations.

HIGHLIGHTS OF THE PROGRAMS

European Human Rights (LL.M.)

Starting from 2016 September, our European Human Rights program focuses on complex and creative problem solving in the field of human rights law, and wishes to enable students to take new approaches in human rights litigation on various European forums.

We provide a vibrant, international environment where participants could work under the supervision of internationally recognized experts and after graduation they will be able to confidently deliver legal solutions to multifaceted human rights issues or create tailor-made prevention tools to avoid human rights abuses.

Our programmes are open for application till 30th of June!*

International and European Taxation program for lawyers (LL.M.) and economists

Practitioners with law or economics degree can apply for the programme. Most of the courses are the very same for both groups of students, although the syllabus contains specialized courses on economics for lawyers, and on legal topics for economists. The synergies between legal and economic knowledge in the education lift the level of understanding of challenging tax issues.

* Hungarian applicants for our European and International Business Law programme must apply via felki.hu in line with the official applications for higher education until 15th of February.
